Overview of OSINT

CTF + OSINT = ?

Open-source intelligence (OSINT) is intelligence that is produced from publicly available information and is collected, exploited, and disseminated in a timely manner to an appropriate audience for the purpose of addressing a specific intelligence requirement.

You can DIY

What can we use with OSINT?

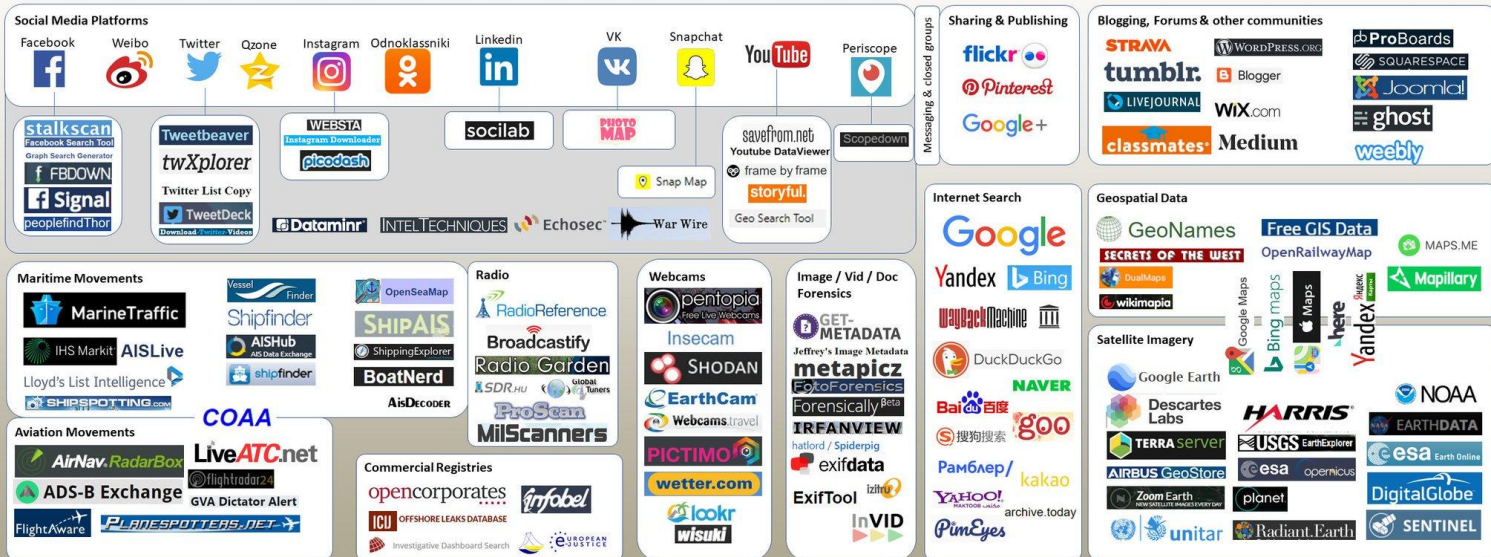

- User awareness training
- Missing people
- Domestic abuse
- Threat intelligence
- Geo osint
- Dark web monitoring
- Many more ...

OSINT Landscape

OSINT Landscape v.1 February 2018

Open Source Intelligence (/OSINT – Open Source Investigation)

This landscape shows data sources (mostly platforms, tools or apps) that provide publicly available data which may be of use in OSINT. Some tools may charge for data access. It is intended to be extensive, but not exhaustive, and may be updated periodically.

Exercise 2

Sometimes I worry about my friend... he's way too into memes, he's always smiling, and he's always spouting nonsense about some "forbidden app." I don't know what he's talking about, but maybe you can help me figure it out! All I know is a username he used way back in the day. Good luck! Flag format is `sdctf{flag}`

Username: DanFlashes

Exercise 3

"We were on the trail of a notorious hacker earlier this week, but they suddenly went dark, taking down all of their internet presence...All we have is a username. We need you to track down their personal email address! It will be in the form ****.sdctf@gmail.com. Once you find it, send them an email to demand the flag!"

Username: mann5549
